WHAT IS THE BROADBAND RELIEF PROGRAM?

Most people, if not all, relied on Internet access during the height of the pandemic to complete daily tasks such as school and work. Internet access hasn’t always been affordable for all Americans, as the creators of ACP (Affordable Connectivity Program) discovered. FCC’s Affordable Connectivity Program lets households afford the broadband they need for work, school, healthcare, and more. This benefit provides a discount of up to $30 per month toward Internet service for eligible households and up to $75 per month for households on qualifying Tribal lands. Eligible households can also receive a one-time discount of up to $100 to purchase a laptop, desktop computer, or tablet from participating providers if they contribute more than $10 and less than $50 toward the purchase price.

TIPS & RESOURCES

TIP 1: YOU MUST USE THE #UPLIFTNM IN YOUR POST DESCRIPTION
By using the hashtag #UpLiftNM we can collect and monitor each post and engagement activity for everything published for the campaign. Make sure you include it in all of your posts.

TIP 2: VIDEOS ARE SHARED, NOT POSTED
Videos for the #UpLiftNM campaign will be first posted and boosted from the New Mexico Black Leadership Council page. Make sure you share the post from the page in order to increase engagement with the video. You'll receive email correspondence with an update on when the videos will be published.

TIP 3: SHARE, TAG, AND COLLABORATE
Lots of programs have similar services and some share the same resources. Feel free to tag other organizations and share content from the campaign onto your Facebook page in order to increase engagement.
